5. Sh. Vimal Kumar, Assistant Architect.

Sh. Jatinder Singh, Executive Engineer has made presentation on behalf of Chandigarh Housing Board, Chandigarh for the project. After detail deliberations, the

Jatinder

Jatinder *Rajiv* *Vimal* *Anup*

SEAC unanimously recommended to seek the following information/clarification from the project proponent:-

1. No STP has been proposed by the project proponent. As informed, the discharge will be connected to the trunk sewer connected to terminal sewage treatment plant of Municipal Corporation. A commitment from the Municipal Corporation, Chandigarh may be furnished to this effect that the sewage from the proposed project site would be connected to trunk sewer and it would be treated in terminal treatment plant.
2. As per information provided in the Form IA under the point No. 3 (Vegetation). It has been mentioned that no cutting of trees is involved however during discussion it was come out that cutting of trees is involved. The following information may be submitted:-
 - a. No. of trees at site
 - b. No. of trees to be felled down
 - b. Permission of competent authority for felling of trees
 - c. Detail plan of compensatory plantation
3. As proposed by the proponent that the ground water will be recharged by the storm water. The quality and quantity of storm water has not been provided and impact of recharging the ground water with storm water has also not been assessed. The report may be submitted.
4. A large number of DG sets is proposed to be provided for lift operations. The matter may be examined by the Proponent for making provision of single DG Set to meet the emergency requirement. Alternatively, the possible requirement of reduction in no, of DG Sets may be looked into.
5. As proposed 30% of the external lighting is proposed on solar. The quantity of power requirement met and the energy requirement to be met from solar may be provided alongwith capacity of SPV power plants.
6. NOC/ clearance from the Fire department
7. Following correction is required to be done in form I and IA
 - a. Point No.9 of Form I, It should be Chandigarh in place of Haryana.
 - b. Point No. 3.1 of Form I, the Hazardous Waste (Management & Handling) Rules 2008 is in compliance whereas it is written Hazardous waste (Management & Handling) Rules 2003, the same is required to be corrected.
 - c. As stated at Point No. 8.4 of form IA and Point No. 4.2 of Form I the solid waste generated during construction phase will be segregated to bio-degradable and non-biodegradable and handed over to the Vendors and solid waste generated during operation phase shall be segregated to

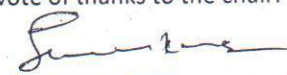

biodegradable and non-biodegradable waste . The bio degradable waste will be composting by organic waste composting system and non-biodegradable waste will be disposed off at approved landfill site . But during meeting it has been informed that the solid waste will be handed over to the vendors for disposal during construction phase and during operation the waste will be disposed off at approved landfill site. Please clarify the same.

8. Copy of the letter of Ministry of Environment & Forests, New Delhi whereby the consultant has been enlisted.
9. Air and Noise test reports of project site from the authorized laboratory may be submitted.

The meeting ended with the vote of thanks to the chair.
